Tech Tip of the Month:

From: Jim Lundquist,
Marketing Department

The following tip comes from my days as a manager at an auto glass shop:

One thing I used to tell my customers was to carry a roll of duct tape and a 4x4 roll of clear vinyl in their vehicle. The reason for this being that if you ever have any window in your vehicle break, you can still go down the road without freezing to death. Also, if you ever get stranded on the road and have no heat, you can wrap your body in the vinyl to stay warm. Added bonus, if you ever leave your window(s) down in a rain storm, you can put the vinyl on the seat so you don't get wet! I'm sure you can think of many more things you can use the duct tape and vinyl for, but if you don't put it in your vehicle now, you won't be able to try it when the time comes!

Lehman's Garage Welcomes New Employees

Stefany Doll was recently hired in our Marketing & Sales Department. She will be working with Jim and Whitey on various marketing initiatives.

Stefany is a recent graduate of the University of St. Thomas with a business degree in Marketing Management. She is no stranger to the automotive field, having worked at Clason Pontiac-Buick-GMC in La Crosse, WI for the past seven years where she was involved in many aspects of the automotive business.

Stefany is very experienced with the computer and Internet, which will help us a lot in growing our business. We all welcome Stefany aboard.

We are proud to also welcome the following new employees to the Lehman's team:

Aaron Rolfsrud - Detailer at our Minneapolis shop

Derek Hari - Painter at our Bloomington shop

John Kinney - Estimator at our Minneapolis shop

William Zeller - Estimator at our Savage shop

Lights on for Safety at Dunwoody

On Saturday, October 6th, Lehman's Garage was at the Dunwoody College of Technology in Minneapolis for the 13th annual Lights on for Safety event. Lights on for Safety is held simultaneously at eight locations throughout the state of Minnesota. At this event, people receive a free check of their vehicle's exterior lights by AASP-MN technicians, in exchange for a donation of cash or non-perishable food items for Hunger Solutions Minnesota. There was a good turn out at Dunwoody, with approximately one-hundred and seventeen light bulbs replaced and 214 lbs. of food and \$276 collected for Hunger Solutions.

Lights on for Safety is a great program that benefits everyone involved by giving students experience, improving vehicle safety and stocking the local food shelves. We are proud to be a part of this event along with the Alliance of Automotive Service Providers of Minnesota (AASP) & industry suppliers, the Minnesota State Patrol, and Hunger Solutions Minnesota.

Coming November 14 & 15: Continuing Education (CE) Classes
